Budapest

## Summary

I'm a system administrator with history of working in Information Technology. Skilled in Microsoft office applications, group policies, Active Directory and supporting. I graduated as an Online Application maker and Developer.

---

## Experience

BRFK XIX. District Police

System Administrator

June 2020 - Present (9 months)

As a system administrator my daily work always changing, I have to face new challenges everyday. I have to perform under pressure in a strict government based system. I manage and support the computer network at the station, which includes a 100+ devices. Adding new users is also my job, I write applicants in Microsoft Word and Excel daily. The computers are Windows based, in a workgroup handled by Active Directory, on a local network.
